ABOUT US

An
exemplary
success
story

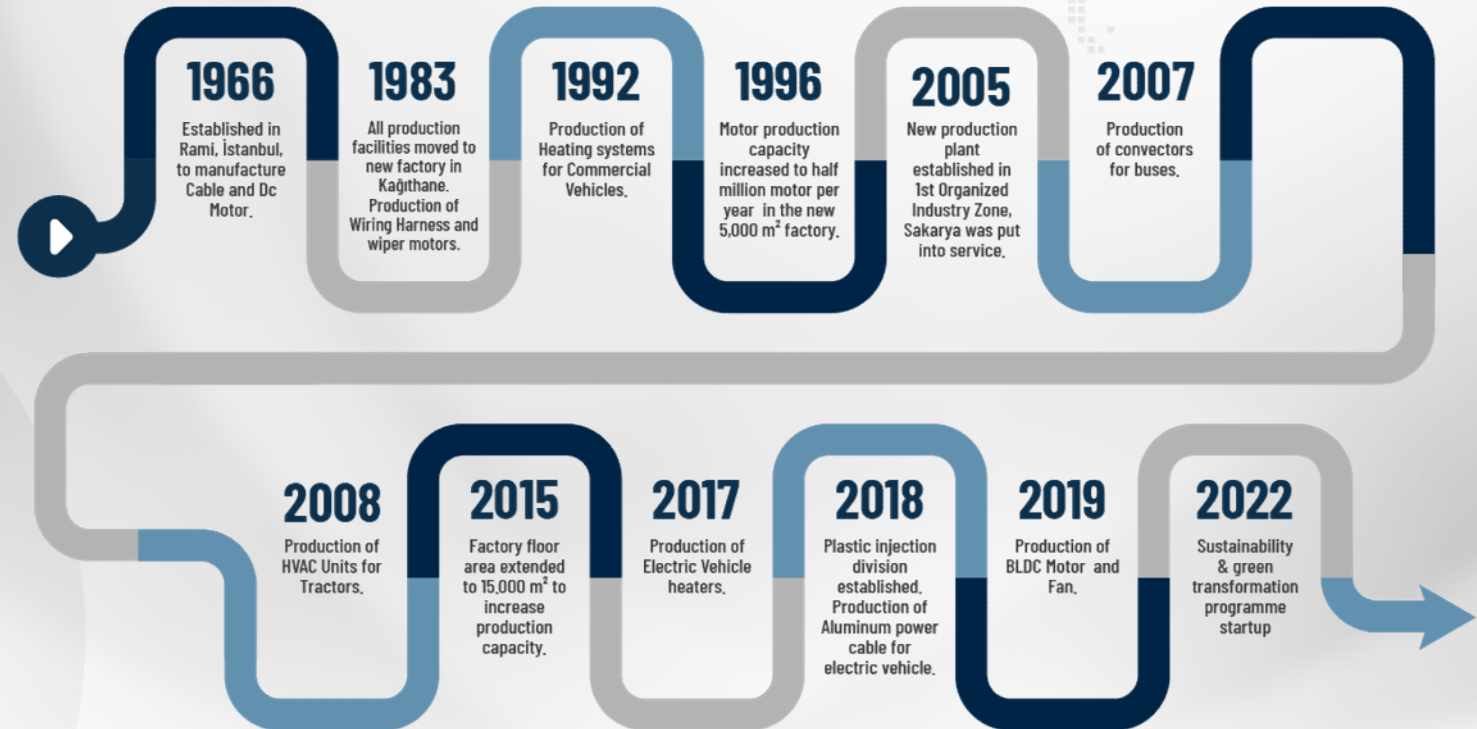

Başkurt Motor ve Kablo Sanayi A.Ş. was established in 1966, Istanbul to manufacture cable, cable assembly and heater motor for vehicles. In 2005, new production plant in Sakarya was put into service. The headquarters is in Istanbul and all production activities are conducted at one complex in Sakarya 1st Industrial Zone.

The production facility is TS ISO 9001, TS ISO 16949 and ISO 14001 certified. Product design, development, validation, material tests, durability tests and functional tests are all to ensure the product and service quality of Başkurt.

With wide product range, powerful engineering capability and customer-oriented approach, Başkurt is a reliable business partner preferred by most national and international customers in commercial vehicle sector.

Main products are dc geared and non-geared motors, HVAC units, copper and aluminum cable, cable assemblies.
